**V7 NEXGEN** In Decision Management

Our story

We started the Decision Management revolution that radically changed how IT and Business collaborate. We introduced The Decision Model, delivered powerful but easy to use no code platform and re-envisioned the development cycle

How We Established Decision Management

Development Cycle
Reduce or eliminate IT dev and test steps for decision logic

Redefined Development Cycle

Easy to use platform
No code platform using decision services Business Analysts can manage business logic

No Code Platform

The Decision Model

The Decision Model
